

To whom it may concern,

My institute would support my participation at the school with a contribution up to 500 euros which should cover the plane tickets (cost about 300 euros) and lunches (30 euros for day). The registration fee for the summer school is about 900 euros and personally I would prefer to use this amount of money for the attendance of international conferences. Because of that I would require to apply for the registration fee.

Best Regards
