

Request for travel subsidy

I am writing to you because I would like to appeal for your help with the expenses required to attend the workshop. I am working in a private organisation and it has been only one year. I am the only working person in my family as my mother is a homemaker and my father is a retired employee. My current employer will not be able support me financially as they have no reimbursement policy for travel support for summer school, so my presence in this workshop will be solely dependent on your consideration for subsidy. As this workshop is designed to support young researchers and scientific software engineers like me, I truly hope that I will be highly benefited by attending this workshop.

Without the support of funding, however, it will be impossible for me to attend the summer school where I definitely wish to participate. I will be grateful if you kindly arrange for a subsidy(1500 GBP) so that I could get a chance to attend the workshop. Exposure to the courses offered and interaction with the great minds to be present at this workshop will greatly help my current work and future research endeavours.

I sincerely request you to kindly consider this application to grant my attendance.
