

*To the Organisers ESiWACE summer school*

***Justification for the grant request***

*I would like to apply for attendance subsidy (Full registration fee for the summer school)*

*In the Sofia University “St. Kliment Ohridski” there are limited funds to support participation of PhD students in conferences, workshops and schools or courses. However, preference is given to the high-level international conferences’ participation. For example, I will be able to attend the European Geophysical Union General Assembly in May 2020. The training courses are covered with less financial resources. My estimation is that I will be able to cover the travel expenses and might be able to cover partly the accommodation.*

*Yours sincerely,*

*Mirna Matov*
