

Subsidy Request

Justification:

A combination of factors contributes for my participation in the event to be only possible with the Travel Subsidy. One of them is the recent Brazilian currency devaluation (22% before the US Dollar in the last 10 months), this scenario when considering my social economic status preclude the possibility for my family to afford most of the travel costs.

Also, is very important to consider, that Brazilian government research funding institutes do not finance travel costs for young researchers, due to the recent spending cuts in the research funding by the government.

Therefore, I do not have the means to pay my travel expenses. Finally, I would like to reinforce the importance for me of the subsidy.

Level of subsidy: Travel Subsidy

Cost estimate:

Observation: the meals, accommodation and transport costs are estimated by the cost shown in the website for the full package registration

Costs:

Flight ticket: £540,00

Meals, Accommodation and Transport: £800,00
