

The Euro-Mediterranean Center on Climate Change (CMCC) is a non-profit research institution that manages and promotes scientific and applied activities in the field of international climate change research. Although it strongly encourages and supports the participation of its employees and researchers in training activities, unfortunately it does not have funds available for this type of initiatives. For this reason, I'm applying for the 'travel subsidy'. Anyway, If the travel subsidy is not feasible, any other level of benefit would be welcome.
