

Justification for the requested level of subsidy for Adolfo Chamorro

I don't have any other funding source right now but if I am selected to attend the summer school I could request funding in other Peruvian institution as for example the Council of Science of my country. My home institution can not pay for it because we have limited budget and normally it is very hard to request extra budget.

I am requesting from the school the amount of 1500 pound sterling which could cover mainly the travel costs from my home institution to Reading. I should request funding to my personal expenses to other institution of Peru.
